

The background is a complex marbled pattern. It features large, swirling shapes in various shades of purple, from deep magenta to light lavender, and pink. The colors are intermingled with white and light grey, creating a fluid, organic texture. The overall effect is reminiscent of liquid paint being poured and then manipulated to create these intricate, cell-like or alien-like forms.

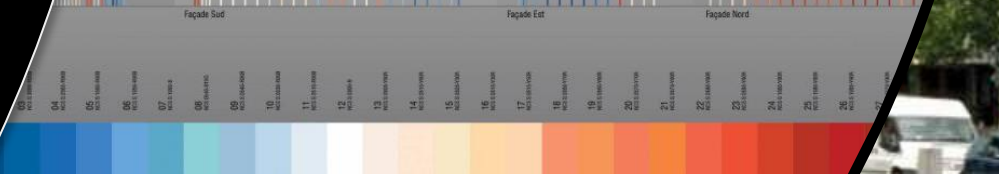

SS Paint Option:
Royal Purple Alien Skin

SS Paint
Option:
Royal Purple
Alien Skin

DESIGN PROCESS:

1. Pattern with Colour Sequence is mapped onto the façade with each surface carefully added.
2. The Pattern is part of a larger image so there is a continuous “unfolding” of the colours creating a harmonious façade that offers infinite variety.
3. Each façade element is then pasted onto the 3D wall element of the façade in a Topographical Exercise.

SS Paint Option:

Royal Purple Alien Skin

- **Façade Design**

Pattern_ Abstract Pixel derived from Science Fiction depictions of Alien Spaceships.

Colours_ Predominant Colour is Royal Purple with complimentary colours of Pink, Indigo, Teal, Mustard, Burnt Orange, Burgandy

Gradation_ Colours merge into each other with gradual gradation to create visual complexity and uniformity.

• **Façade Design**

Pattern_ Abstract Pixel derived from Science Fiction depictions of Alien Spaceships.

Colours_ Predominant Colour is Royal Purple with complimentary colours of Pink, Indigo, Teal, Mustard, Burnt Orange, Burgandy

Gradation_ Colours merge into each other with gradual gradation to create visual complexity and uniformity.

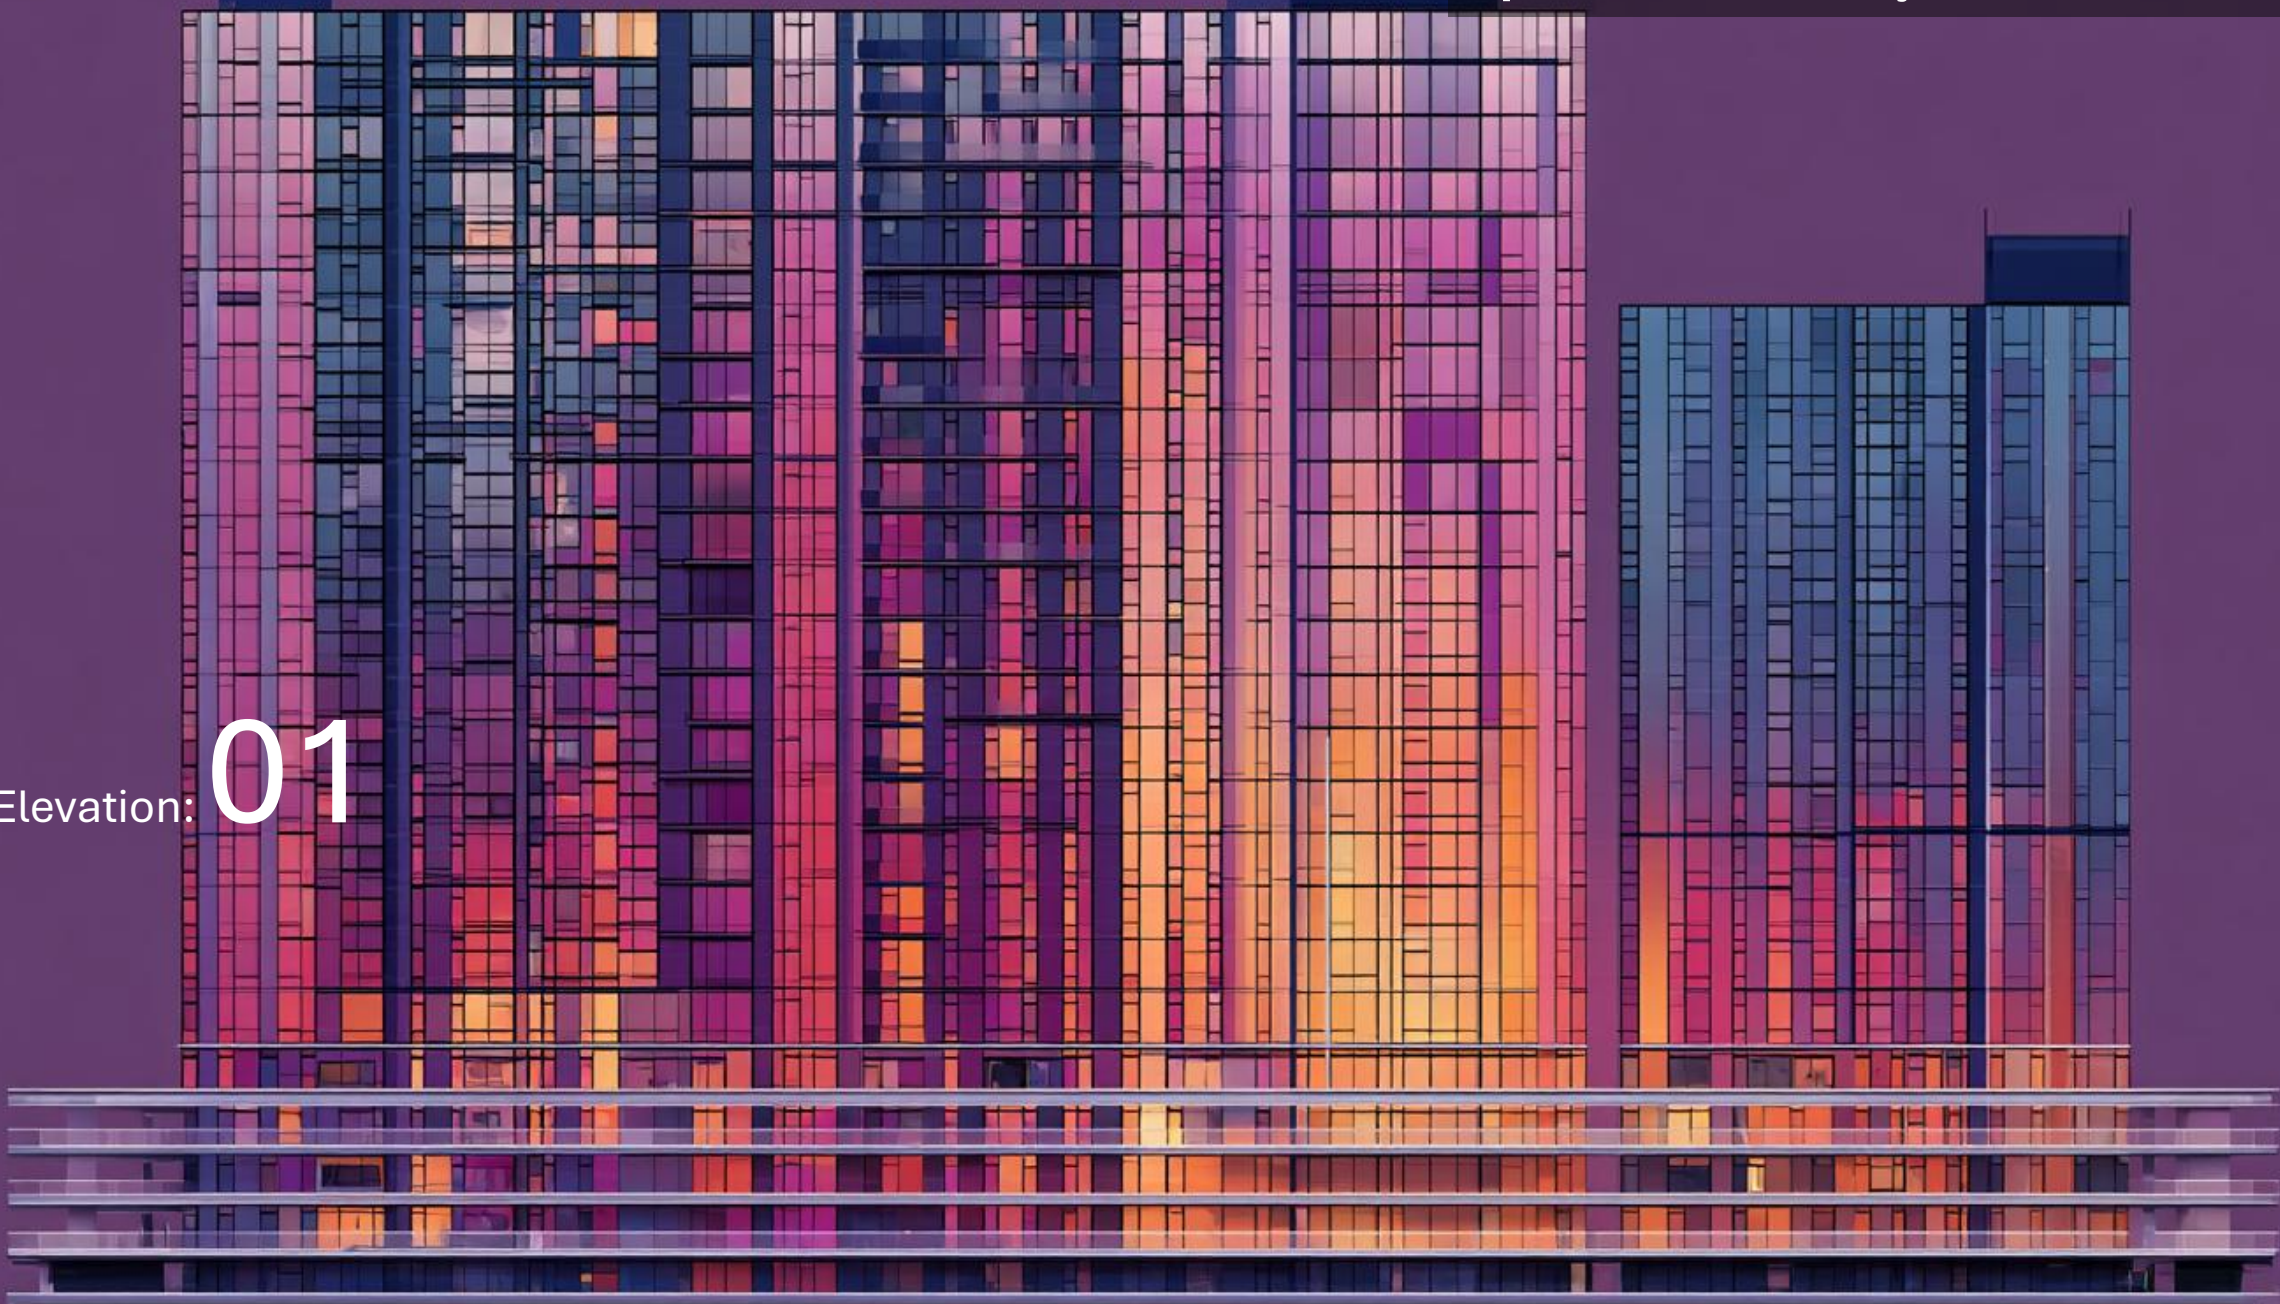

- **Façade Design**

The Pattern will undulate and change across all stations so that no part of the façade will be the same paint combination as another part of the project.

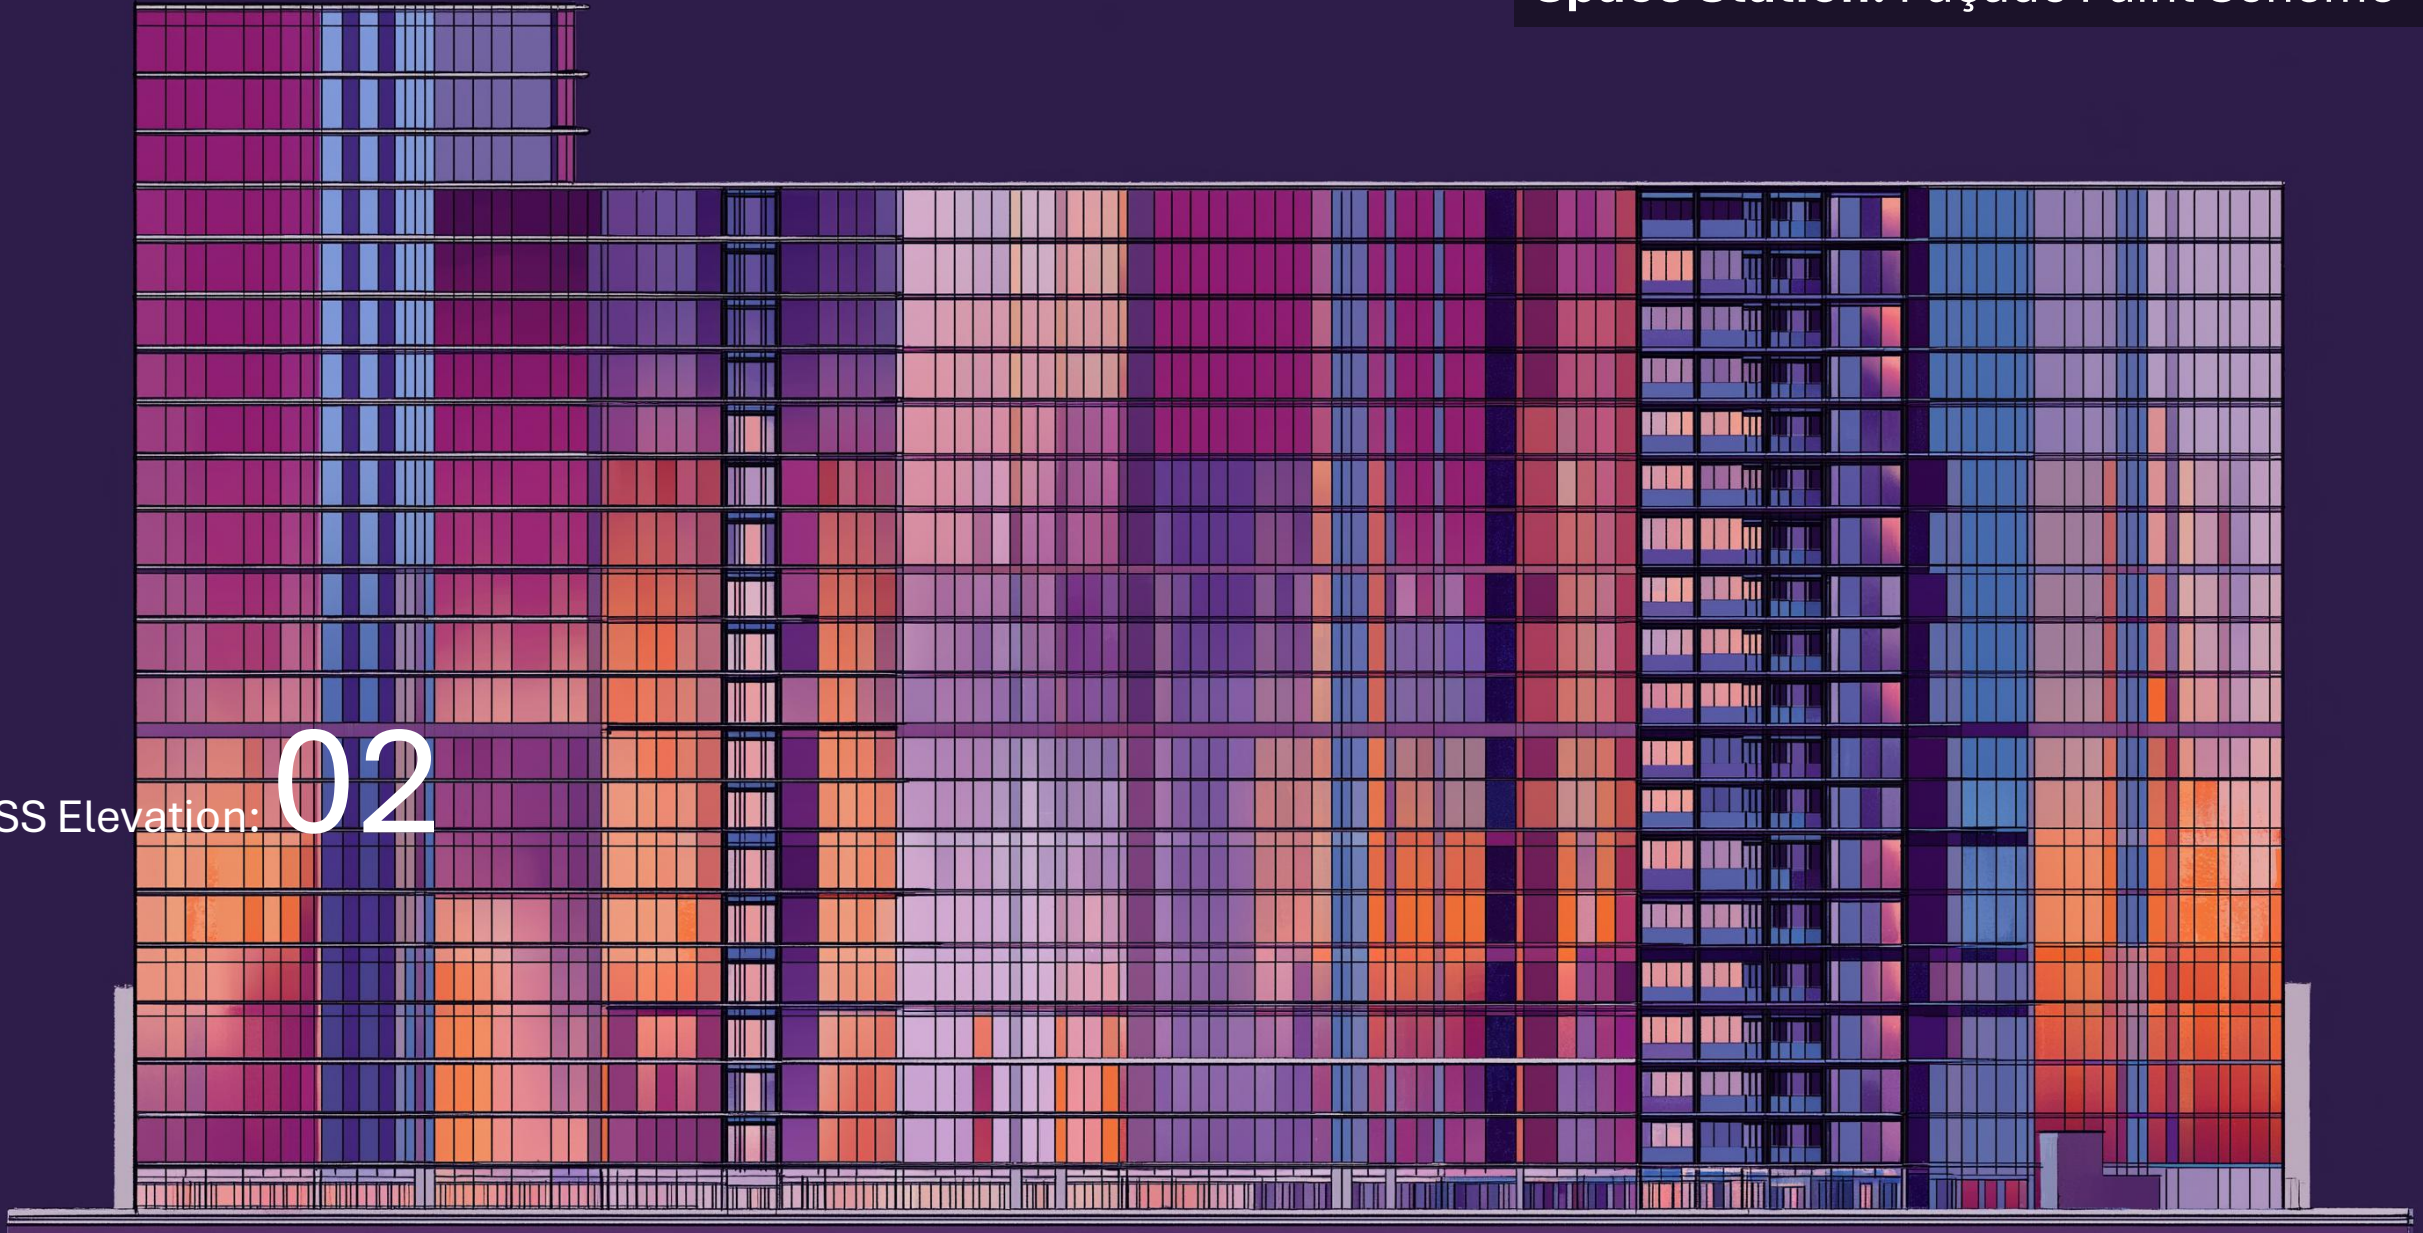

This creates an unfolding and continuous uniqueness to the project; however, the overall theme binds the overall effect into a cohesive whole.

Detailed View: **Colour Gradation**

A tall, modern apartment building with a facade that features a vibrant color gradient. The colors transition from deep purple on the left side to bright orange on the right side. The building has many windows and balconies, and the overall appearance is that of a contemporary urban structure.
